

Service Objectives

- Day Activity Centre cum Hostel for Severely Mentally Handicapped Persons: to provide day care and training in a safe and comfortable home living residential environment assisted with various personal care needs. Health conditions and their abilities can be maintained to become more independent in daily living.
- Extended Care Program: to provide day care service to service users who no longer benefit from prolonged or intensive training and are more suitable to enjoy their life through developmental and social activities.
- Residential Respite Service: to provide short-term residential care service for people with disabilities in the community so that their family members or carers in need can have a planned short break or may attend to their personal business.

Target Group

- Day Activity Centre cum Hostel for Severely Mentally Handicapped Persons: people aged 15 or above with severe intellectual disability; physically and mentally suitable group living and without infectious disease.
- Extended Care Program of the Day Care Centre: people aged 50 or above who are existing service users of the Centre, have a deteriorating health condition and no longer benefit from intensive training.
- Residential Respite Service: person aged 6 or above with intellectual disabilities living in the community.

Scope of Service

Day Care Centre cum Hostel for Severely Mentally Handicapped Persons

- Conduct initial and periodical assessments to evaluate the level of disability of each service user and set up an individual care and training plan.
- Provide individual or group training related to daily functioning, self-care, communication skills, social skills, communal living skills etc. With an integrated service approach, our service users are encouraged to have whole-person development.
- Social and recreational activities are organized. Other organizations are invited to visit the Centre and service users can participate in community activities and make use of community facilities. Different organizations are liaised to jointly organize community education programs and volunteer work.

- Provide nursing care (administration and supervision of medication, wound management, measurement of blood pressure and body temperature, etc.), care of daily living and lunch arrangement. Referrals will be made for physiotherapy, occupational therapy, and clinical psychology services on need basis.

*The Hostel provides occupational therapy, physiotherapy, speech therapy services and a private doctor outreach program to service users in need. For details, please contact the Centre staff.

Extended Care Program

- Simple exercise and rehabilitation training, as well as social, recreational and developmental programs are provided.

Residential Respite Service

- Short-term residential care service is provided. Each period cannot last more than 14 consecutive days.

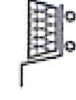

Day Activity Centre Service (DAC) only

- Service users: People aged 15 or above with severe intellectual disabilities. Not bedridden or requiring infirmity care; without infectious diseases and severe aggressive behaviour endangering self and others.
- Service hours: 09:00 to 15:30 every Monday to Friday, excluding public holidays.
- Service charge: The Centre will provide lunch service and each meal will be charged \$20. If pick-up and drop-off services are required, the Centre will provide coordination services and the expenses will be paid by service users.

Service Capacity

	Capacity	Total Capacity
Day Activity Centre	25	57 (7 for single DAC)
